Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 26, 2006 has been entered.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Claims 28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 28, lines 9-10, the functional recitation, "from a center thereof along the entire anterior edges to the lateral sides thereof", is indefinite because it isn't clear where the center lies. Further, it isn't clear which anterior edges or lateral sides the Applicant is referring to.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 10, 11, 18, 28, 30 and 32 are rejected under 35 U.S.C. 102(b) as being anticipated by Truscott (GB 2364643 A).

Truscott discloses a spinal fusion assembly 101 including an end cap 110, the end cap 110 having a pair of arms or wings 152 extending in laterally opposing directions wherein the wings are flexible and can be bent to enclose the adjacent vertebral body (Figs. 1, 4 and 6, page 3, lines 6-14, page 6, lines 7-36 and page 7, lines 1-31).

The method steps of claim 28 are performed when the Truscott spacer is used to replace a vertebral body.

Response to Arguments

Applicant's arguments submitted under "REMARKS" in the response filed on May 26, 2006 have been fully considered.

The Terminal Disclaimer filed on May 26, 2006 has been approved. Accordingly, the double patenting rejections made in the office action mailed on February 23, 2006 have been overcome.

Applicant's arguments with respect to claims 10, 11, 18, 28, 30 and 32 are moot in view of the new grounds of rejection.

Allowable Subject Matter

Claims 2-5 and 12-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
